

Software Developer

Experienced software developer with 5 years of experience. Developed and deployed a mobile app, increasing user engagement by 40% in the first 3 months. Implemented machine learning algorithms, resulting in a 25% boost in user satisfaction. Led website redesign, increasing traffic by 50% in 3 years.

WORK EXPERIENCE

Waga 01/2022 - Present  
Software Developer

- Developed and deployed a mobile application using Java, resulting in a 40% increase in user engagement within the first three months. • Implemented machine learning algorithms to optimize in-app recommendations, leading to a 25% boost in user satisfaction and retention. • Collaborated with cross-functional teams to identify and address performance bottlenecks, resulting in a 30% decrease in app loading time.
- Improved code efficiency by 25% through refactoring legacy codebase, leading to faster development cycles and reduced maintenance costs for the company.
- Developed a new feature that increased user engagement by 25%, resulting in a 15% increase in customer retention and overall revenue.
- Implemented a code refactoring process that reduced system downtime by 25%, leading to improved system reliability and decreased maintenance costs.
- Collaborated with cross-functional teams to implement automated testing, reducing bug count by 25% and increasing product stability.

Dir Technologies Ethiopia • 01/2019 - 12/2021  
Web Developer

- Led the redesign of client websites, incorporating responsive design principles and improving mobile usability, resulting in a 50% increase in website traffic. • Optimized website performance through code refactoring and image compression techniques, reducing page load times by 40%. • Implemented Database testing strategies for website layouts and features, resulting in a 20% increase in conversion rates for key landing pages.
- Improved application performance by optimizing database queries, resulting in a 40% increase in efficiency and a 25% reduction in server response time, leading to enhanced user experience and productivity.

SKILLS

- Bootstrap
- Cascading Style Sheet
- Code Refactoring
- Creativity
- Cross Functional Skills
- Database Testing
- Emerging Technologies
- Express.js
- GitHub
- Hypertext Markup Language
- Image Compression
- Innovation
- Java
- Machine Learning
- Mobile Application
- Motivation
- Passionate
- Proven Ability
- Python
- Quick Learning
- ReactJS
- Responsive Web Design
- Technical Competency
- User Engagement
- Web Performance

- Improved application performance by optimizing database queries, resulting in a 40% increase in efficiency and a 25% reduction in server response time, leading to enhanced user experience and productivity.
- Resolved 90% of reported bugs within 24 hours, leading to a 50% decrease in customer support tickets and improved overall product reliability.
- Implemented a bug fix that reduced crash rates by 20%, resulting in a more stable and reliable software product for users.

## EDUCATION

---

### **Bsc In Electrical And Computer Engineering**

Dire Dawa University  
GPA: 3.73  
12/2019

## AWARDS & SCHOLARSHIPS

---

**Best Employee Award**

12/2019
